Arion

With a yacht-like ambiance, Arion has a particular style, charm and grace which can only be found on a vessel of this size. Recently refurbished, Arion is able to offer you a truly memorable cruising experience combined with a service that is second to none.

In March 2000, the Arion was rebuilt in Lisbon for the amount of 15 million dollars. Her interiors were designed and decorated by Arminio Lozzi and George Potamianos, who created a subtle atmosphere of light blending with soft colours throughout it's new public rooms and passenger cabins. Renamed as "Arion" in 2000, the ship has been sailing since then around the globe.

Aboard, the restaurant provides a warm and relaxing environment in which to enjoy the leisurely meals prepared for you by our international Chefs. Classic International Cruises menus are designed under the personal supervision of our Corporate Chef, Laurent Manceau. Alternatively you may wish to enjoy lunch "al fresco" style in the Lido Lounge, and don't forget afternoon tea where you can savour a selection of finger sandwiches, fresh warm scones and a choice of tea from the wide selection served on board.

A cruise on the Arion is the ideal choice for passengers wishing to visit those cosy harbours and ports of call that are inaccessible to larger vessels. After a perfect day ashore or a day of simply relaxing on deck, why not enjoy an after dinner drink in one of Arion's intimate lounges before taking in the show or enjoying the night sky from the open deck.

Classic International Cruises

Arion

Arion was a legendary poet and musician in ancient Greece (originally of Lesbos) who lived in the court of Periandros (627-585 BC), tyrant of Corinth, Greece.

He attended a musical competition in Sicily, which he won. On his return trip from Sicily, the avaricious sailors plotted to kill him and steal the rich prizes he carried homewards.

Arion was given the choice of "suicide" with a proper burial on land, or being thrown in the sea to perish. Neither prospect appealed to Arion and he asked for permission to sing one last song to win himself some time.

Playing his chitarra, Arion sung a praise to Apollo, the god of poetry, and his song attracted a number of dolphins around the ship.

At the end of the song, rather than be killed by the sailors, Arion threw himself overboard, and was miraculously saved by one of the dolphins which had been charmed by his music.

The gentle creature carried him to safety at Cape Taenarum.

Arion then continued to Corinth by other means and arrived before the sailors that tried to kill him. On his return to Corinth, the king didn't quite believe Arion's fantastic story.

The sailors believed Arion was dead in the sea, and on arrival in Corinth they told the king that Arion had decided to remain in Italy. The king then understood that Arion's story was true and punished the sailors with death.

Later, Arion's lyre and the dolphin became the constellations Lyra and Delphinus.
